4 JANUARY 1912:

Ahloso, Okla.

We had a big snow Friday and today it is sleeting.

Mrs. Kanaoipn and family are visiting the writer today.

Little Carson Davis died last Monday night and was buried at the Ada graveyard. He was a sweet little boy and his company is greatly missed by his papa and mama and many others. I hope we will all live so we can meet him in Heaven where will be no sad parting.

Miss Jessie DilUrd fell Saturday and threw her ankle out of place but is getting along fine.

George Howard and Miss Elna Davis were married the 10th of this month, we wish them a long and happy life.

Born to Mr. and Mrs. W. M. Davis last week a new baby girl.

The writer and family visited W. C. Lollar and family Sunday.

Geo. Randolph and John – Ledbetter went to Ada on business Tuesday.

Green Davis visited T. D. Ford yesterday.

Mrs. Suda Grone and her children visited at Mr. Jobes Sunday.

Mama if you see this in print I want you to write to me I haven't heard from you in two months.

Mrs. Dahuff be sure and write a, long letter next week; also Lola Lee West, I like to read your letters.

Well as it is still raining and sleeting guess I had better ring off by asking all the readers to send me a Christmas card; I am out here in the west all alone no kinfolks at all and I am lonesome so it would be a great pleasure to me to get a card from all my friends and Herald readers.

Stafford, Okla.

There has never been anything in the Putnam County Herald from this place so I will jot down a few items. It began raining here 8th at midnight and rained all day the 9th and the 15th we had a 12 inch snow. The largest snow I have seen in Oklahoma. The farmers are very glad to see the rain and snow They think it will be a great help for another year's crop. There has been a fair cotton; crop this year. Has already been marketed in this city something near 6,000 bales. But we haven't any corn at all. The farmers are buying their corn at the elevator at 70cts per bushel corn crops are worth \$1.40 per 100, first grade flour \$2.50 per 100, hay 40cts a bale.

Our little city 13 only five and one half years old ; we have 34 brick buildings, two :good strong banks, three grain mills, three gins, very fine brick school building and plans for two more concrete church buildings.

I spent the month of Sept. at my old home in Tennessee and still love my old friends there. But there is no place like Oklahoma to me.

Maud Jones what has become of you? I would like to read a letter from you.

H.W. J. and John E. went hunting on the snowy day and killed something under a wagon load of rabbits and something under a buggy load of birds and are now gone on the Canadian river duck hunting.

Dear Editor; This is my first time to write to your little paper I think it one of the nicest of papers. I have learned more through it than all the letters get. . v : ,

It has rained and put a good season in the ground, something we haven't had for 'about one year.

There wasn't much" corn made in this part of Oklahoma and people are having the hardest time ever experienced by the settlers of this country. Corn is 75 cts to 85 cts, hogs 5cts on foot, flour \$2. 50 to \$2. 65.
